

Form 3 – Final Geotechnical Certificate

DA Number: \_\_\_\_\_

This form must be submitted at the completion of a project, with an application for occupation certificate from the Principal Certifying Authority (PCA).

Form 3 is essential, as it provides verification that the development works have been completed in accordance with the requirements of the geotechnical report, and any subsequent geotechnical requirements introduced during the construction process.

Please contact the Alpine Resorts Team in Jindabyne for further information - phone 02 6456 1733.

To complete this form, please place a cross in the appropriate boxes [ ] and complete all sections.

1. Declaration made by a geotechnical engineer or engineering geologist in relation to the geotechnical report.

I, Mr [ ] Ms [ ] Mrs [ ] Dr [ ] Other [ ]

First Name Family Name

OF Company/organisation

certify that I am a geotechnical engineer/engineering geologist as defined by the "Policy" and, I prepared or have reviewed the geotechnical report as described below:

Title of geotechnical report

Development site address

Author Dated

I reviewed the original structural design, and where applicable the subsequently amended structural details (listed below) which have been incorporated into the completed project.

List of amended structural drawings not included in original consent

I have inspected and/or am satisfied that the foundation materials, upon which the structural elements (as detailed in the original and amended structural documents) of the development have been erected, comply with the requirements specified in the geotechnical report.

To the best of my knowledge, I am satisfied that the development referred to in the development consent numbered

DA No

Dated

has been carried out in accordance with all the requirements of the above geotechnical report, and the conditions of development consent relating to geotechnical issues (including any treatment and/or maintenance plan that may be required to reduce risk).

I am aware that the PCA requires this certificate prior to issuing an occupation certificate for the development identified above and will rely on this certificate as verification that the development has achieved the necessary level of "acceptable risk" as defined by the policy, and in determining the occupation certificate.
