

Housing

#### **Application**

These assessment requirements apply to eligible applications<sup>1</sup> for development that is specified in:

- Schedule 1, Section 26(2), 26A, Sections 27 and 28, Schedule 2, Section 19 of State Environmental Planning Policy (Planning Systems) 2021.
- Residential development declared State significant development under Section 4.36 of *Environmental Planning and Assessment Act 1979*.

#### Development details

| Application number |  |
|--------------------|--|
| Project name       |  |
| Location           |  |
| Applicant          |  |
| Date of issue      |  |

#### Content and guidance

The Environmental Impact Statement (EIS) must meet the minimum form and content requirements as prescribed by Part 8 of the *Environmental Planning and Assessment Regulation 2021* (EP&A Regulation) and the *State Significant Development Guidelines*. The EIS must also address the issues set out below.

Relevant policies, guidelines and planning circulars can be found at <a href="https://www.planningportal.nsw.gov.au/major-projects/assessment/policies-and-guidelines">https://www.planningportal.nsw.gov.au/major-projects/assessment/policies-and-guidelines</a>.

#### Key issues and supporting documentation

| Issue and Assessment Requirements |   | Supporting Documentation                                    |
|-----------------------------------|---|---|
| 1.                                | Statutory Context   | If required:  |
| •                                 | Address all relevant legislation, environmental planning instruments (EPIs) (including drafts), plans, policies, guidelines and planning circulars. | Clause 4.6 Variation Request (for any non- compliances with |

<sup>&</sup>lt;sup>1</sup> Industry-specific SEARs only apply to SSD applications other than those that:

<sup>•</sup> would be designated development but for the Act, section 4.10(2), or

<sup>•</sup> are partly prohibited by an environmental planning instrument (EPI), or

<sup>•</sup> are wholly prohibited by an EPI, to the extent permitted by the Act, section 4.38(5), or

are a concept development application for State significant development.

| Iss | sue and Assessment Requirements  | Supporting<br>Documentation             |
|-----|--|---|
| •   | Identify compliance with applicable development standards and provide a detailed justification for any non-compliances.  | applicable<br>development<br>standards) |
| •   | Provide an explanation of how the development as described in the EIS is consistent with the development as was described in the request for SEARs (including any components that were not SSD) and provide a justification for any differences.                                     | standards)                              |
| •   | Address the requirements of any approvals applying to the site, including any concept approval, any endorsed or draft master plan, precinct plan or any recommendation from Gateway determination.   |   |
| •   | Provide an accurate summary of the detailed assessment of the impacts of the project and integrate the findings and recommendations of technical reports into the justification and evaluation of the project as a whole.  |   |
| •   | If affordable housing is being proposed, provide the name and ABN of the registered community housing provider that will be responsible for managing the affordable housing component, along with documentation confirming the provider's agreement to this responsibility.          |   |
| 2.  | Estimated Development Cost and Employment  | EDC Report                              |
| •   | Provide the estimated development cost (EDC) of the development prepared in accordance with the relevant planning circular using the Standard Form of EDC Report.  |   |
| •   | As applicable, the EDC Report must separately specify the EDC of:  |   |
|     | <ul> <li>the residential component of the development.</li> </ul>  |   |
|     | <ul> <li>the tenant component of the built-to-rent development.</li> </ul>   |   |
|     | o the seniors housing component of the development.  |   |
| 3.  | Contributions and Public Benefit   | Address in EIS                          |
| •   | Address the requirements any relevant contribution plan(s), planning agreement or EPI requiring a monetary contribution, dedication of land and/or works-in-kind agreement. and include details of any proposal for further material public benefit.                                 | If required: Draft planning agreement   |
| •   | Where a voluntary planning agreement is proposed, prepare a draft planning agreement in accordance with the <i>Planning agreements – Practice note- February</i> 2021.   | C                                       |
| 4.  | Engagement   | Engagement<br>Penort                    |
| •   | Demonstrate that engagement and consultation activities have been undertaken in accordance with the <i>Undertaking Engagement Guidelines for State Significant Projects</i> and identify how issues raised, and feedback received have been considered in the design of the project. | Report                                  |

| Issue and Assessment Requirements |   |   | Supporting Documentation   |
|-----------------------------------|---|---|--|
|                                   | 0   | If the development would have required an approval or authorisation under another Act but for the application of s 4.41 of the EP&A Act or requires an approval or authorisation under another Act to be applied consistently by s 4.42 of the EP&A Act, the agency relevant to that approval or authorisation must be consulted. |  |
| 5.                                | Desigr  | Quality   | Design Excellence  |
| •                                 | Demon   | strate how the development will achieve:  | Strategy (where design excellence                                      |
|                                   | 0   | design excellence in accordance with any applicable EPI provisions.   | is required by an EPI)   |
|                                   | 0   | good design in accordance with the seven objectives for good design in Better Placed.   | Competition Report (where a  |
| •                                 | Demon   | strate that the development:  | competitive design process has been                                    |
|                                   | 0   | where required by an EPI or concept approval, or where proposed, has been subject to a competitive design process, carried out in accordance  | held)  |
|                                   | 0   | with an endorsed brief and Design Excellence Strategy; or in all other instances, has been reviewed by the State Design Review Panel (SDRP) where required under the NSW SDRP: Guidelines for Project Teams.  | Design Review Report (where the project has been reviewed by the SDRP) |
| •                                 |   | mendations of the jury and Design Integrity Panel (where a competitive process has been held) or the SDRP are to be addressed prior to ent.   |  |
| 6.                                | Built F   | orm and Urban Design  | Architectural Drawings   |
| •                                 | Demonstrate how the proposed built form (layout, height, bulk, scale, separation, setbacks, interface and articulation) addresses and responds to the context, site |   | Design Report  |
|                                   | charac  | teristics, streetscape and existing and future character of the locality. Where it explain and illustrate the application of any bonuses under an EPI.  | Survey Plan  |
| •                                 | If relev  | ant, provide an assessment of the development against:  | Schedule of Colours, Materials   |
|                                   | 0   | the design principles for seniors housing set out in Schedule 8 of State Environmental Planning Policy (Housing) 2021 (Housing SEPP) and the Seniors Housing Design Guide.  | and Finishes  Design Verification                                      |
|                                   | 0   | the design principles for residential apartment development set out in Schedule 9 of the Housing SEPP and the Apartment Design Guide (ADG). This should include a table which demonstrates how each dwelling (including affordable dwellings) addresses the ADG design criteria.  | Statement  |
| •                                 |   | dable housing is proposed, provide a floorplan outlining the gross floor area ellings that are provided as affordable housing.  |  |
| 7.                                | Enviro  | nmental Amenity   | Shadow Diagrams  |
| •                                 |   | amenity impacts on the surrounding locality, including solar access, visual , view loss and view sharing, as well as wind, lighting and reflectivity  |  |

| Iss | sue and Assessment Requirements   | Supporting<br>Documentation  |
|-----|---|--|
| •   | impacts. A high level of environmental amenity for any surrounding residential or other sensitive land uses must be demonstrated.  Provide a solar access analysis of the overshadowing impacts of the development within the site, on surrounding properties and public spaces (during winter solstice) at hourly intervals between 9am and 3pm, comparing the proposed development, existing situation and where applicable, a development with no bonuses applied.   | Chapter 4 Housing<br>SEPP Assessment<br>(ADG)<br>If required:<br>View Impact<br>Analysis   |
| 8.  | Visual Impact  Provide a visual analysis of the development from key viewpoints, including photomontages or perspectives showing the proposed and likely future development.  If the proposal would result in significant visual impact not anticipated by the planning controls, provide a visual impact assessment that addresses the visual impacts of the development on the existing catchment.  | Visual Impact Analysis If required: Visual Impact Assessment   |
| 9.  | Provide a Transport Impact Assessment (TIA) in accordance with the processes and methodology recommended in the <i>Guide to Transport Impact Assessment</i> (GITA) published by TfNSW.  If the construction of the development would cause interruptions to regular pedestrian and transport routes (including public transport, active transport or general traffic), a preliminary Construction Traffic (or Transport) Management Plan (CTMP) should be prepared as part of the TIA to mitigate any such impacts.  Noise and Vibration  Provide a noise and vibration impact assessment prepared in accordance with the relevant NSW Environment Protection Authority (EPA) guidelines. The assessment must detail construction and operational noise and vibration impacts on nearby sensitive receivers and structures and outline the proposed management and mitigation measures that would be implemented. | Transport Impact Assessment  If required: Preliminary Construction Traffic (or Transport) Management Plan  Noise and Vibration Impact Assessment |
| •   | Water Management  Detail the proposed drainage design and servicing infrastructure to be incorporated as part of the development (stormwater and wastewater).  Demonstrate how the development complies with council's drainage requirements and identify proposed stormwater treatment and water quality management measures to minimise adverse environmental impacts.  Ground and Groundwater Conditions  Assess potential impacts on soil resources and related infrastructure and riparian lands on and near the site and including soil erosion.  | Integrated Water Management Plan  Geotechnical Assessment  If required:  |

| lss | sue and Assessment Requirements   | Supporting Documentation  |
|-----|---|---|
| •   | Where required provide a Groundwater Impact Assessment in accordance with relevant Groundwater Guidelines. If the proposed development is on land identified as having high salinity or acid sulfate soil potential in an EPI provide a Salinity Management Plan or Acid Sulfate Soil Management Plan that includes appropriate management measures and strategies. | Groundwater Impact Assessment Salinity Management Plan Acid Sulfate Soils Management Plan   |
| 13. | In accordance with Chapter 4 of the State Environmental Planning Policy (Resilience and Hazards) 2021, assess and quantify any soil and groundwater contamination and demonstrate that the site is suitable (or will be suitable, after remediation) for the development.   | Preliminary Site Investigation Report  If required: Detailed Site Investigation Remedial Action Plan Preliminary Longterm Environmental Management Plan |
| 14. | Trees and Landscaping   | Landscape Plan  |
| •   | Provide a landscape plan, that:   | If required:  |
|     | <ul> <li>details the proposed site planting, including location, number and species of plantings, heights of trees at maturity and proposed canopy coverage (as a percentage of the site area).</li> <li>provides evidence that opportunities to retain significant trees have been explored and/or inform the plan.</li> </ul>                                     | Arboricultural<br>Impact<br>Assessment  |
| •   | If the proposal involves impacts to trees, provide an Arboricultural Impact assessment that assesses the number, location, condition and significance of trees to be removed and retained including:  |   |
|     | o any existing canopy coverage to be retained on-site.  |   |
|     | <ul> <li>tree root mapping. if the proposal involves significant impacts to tree-<br/>protection zones of retained trees identified as being significant.</li> </ul>  |   |
| 15. | Ecologically Sustainable Development (ESD)  | ESD Report  |
|     | <ul> <li>Identify how ESD principles (as defined in section 193 of the EP&amp;A<br/>Regulation) are incorporated in the design and ongoing operation of the<br/>development.</li> </ul>   | BASIX Certificate   |
